

FOR IMMEDIATE RELEASE

25 May 2016

## **Modern Terminals publishes Group Corporate Social Responsibility Report with expanded coverage for all its business units in Hong Kong and Mainland China**

Modern Terminals Limited (MTL) releases its second Corporate Social Responsibility (CSR) Report today with expanded coverage to include all of its business units in Hong Kong and Mainland China. Being one of the region's first container terminal operators to publish a CSR Report, the MTL Group is committed to sharing the achievements and challenges of its CSR journey.

The MTL Group CSR Report was compiled in accordance with the latest Global Reporting Initiative (GRI) G4 sustainability reporting guidelines, covering a period of two years from 1 July 2013 to 30 June 2015. The Report presents the Group's sustainability activities and initiatives in the areas of People, Health and Safety, Community Involvement and Environment. It has been independently verified by the Hong Kong Productivity Council (HKPC) and has received the GRI Materiality Disclosures Service organizational mark.

Mr. Sean A. Kelly, the Chief Executive Officer of MTL Group, said: "We are committed to operating our business sustainably and to contributing to the well-being of the communities in which we live and work. As well as recognizing our achievements, we regard CSR reporting as a valuable self-assessment tool that allows us to review the group's current sustainability performance and identify areas for future improvement.

"A structured stakeholder engagement exercise has been conducted to determine what material aspects should be included or enhanced in our CSR Report. The process of structured stakeholder engagement will continue over the next few years to cover all the key stakeholders of the MTL Group." added Mr. Kelly.

The full text of the Modern Terminals Group CSR Report is available online in English and Chinese at

#### **Note to Editor:**

Modern Terminals Limited (MTL) opened Hong Kong's first purpose-built container terminal facility in 1972. Today, the company owns and operates container terminals at Kwai Tsing Container Port, Hong Kong. MTL has a majority shareholding in DaChan Bay Terminals in the Pearl River Delta (PRD) and cooperates with Ningbo Port Co. Ltd. in its investment in Taicang International Gateway in the Yangtze River Delta (YRD). In the PRD, MTL also holds equity stakes in both Shekou Container Terminals and Chiwan Container Terminal.

MTL is a customer-focused service provider. The company's expertise in the industry, deployment of advanced equipment and the commitment of its people enable it to deliver a unique customer experience at the terminals it operates.

The company's mission is to be the preferred partner for world-class terminal and supply-chain services, building global connectivity for the sustainable development of local economies and the improvement of people's well-being.

MTL has been recognized for its CSR efforts by becoming the first container terminal operator in the region to receive the Corporate Social Responsibility Award at the global 2015 Containerization International Awards. All MTL's operations in Hong Kong and Mainland China are ISO14001 accredited.
